## Certificate for Business Trips

To whom it may concern,

The German Association for Orchestra Musicians hereby confirms that trips to rehearsals, concerts, professional trainings and auditions for which you received an official invitation are essential business trips in order to carry out your professional activity. The nature of these trips is not for recreational purposes.

Musicians who travel on business to such appointments are therefore only subject to local laws which generally apply to business travellers.

Sincerely yours,

  
Gerald Mertens  
CEO
